

# LIST OF CORRECTIONS

This publication has been prepared primarily by assembling and binding the maps and tabular materials originally issued in the separate PC(1)-A, B, C, and D final reports for the State. This plan was adopted in order to conserve public funds. The corrections listed below represent changes which would ordinarily have been made if this publication had been prepared by reprinting these maps and tabular materials. Those items with an asterisk (\*) consist of

errors which affect not only the specific figure(s) mentioned but also affect other data in this publication. Among the other data which might be involved are the statistics for a larger area of which the particular area is part and the statistics by such classifications as urban-rural residence and size of place. The user can, of course, carry through these types of changes if he thinks them worthwhile.

## Page 2, Map

New London County: Area of Norwich city, coextensive with Norwich town, not shaded to show inclusion in New London-Groton-Norwich SMSA.

## Page 3, Map

Litchfield County, map location A-2: Name of Woodbury town and name and limits of Woodbury (U), Woodbury town, not shown.

## Page 14, Map

New Britain shown as New Britain in map title.

## Page 9, table 7

Litchfield County: Change 1960 population of Woodbury (U), Woodbury town, from 3,910 to 1,038. The revised figure excludes a number of persons living outside the area who, in the original tabulations, were erroneously counted as living inside the area.

## Pages 10 and 12, tables 8 and 11

These two pages were reprinted prior to binding of this book and of Vol. I, Part A, Number of Inhabitants. Certain corrections were made in the figures for Wallingford and Woodbury in table 8 and in the figures for the New London-Groton-Norwich SMSA and its components in table 11. The figures shown here, therefore, supersede those originally published in Final Report PC(1)-8A.

## Pages 31 and 67, tables 19 and 28\*

The number of inmates shown in table 28 for Fairfield County includes approximately 339 persons who should have been classified as "other persons in group quarters. This misclassification also affects the corresponding number for the State, shown in table 19.

## Pages 52 and 53, table 21\*

The number of inmates shown for Bridgeport city, for Bridgeport Urbanized Area, and for Bridgeport Standard Metropolitan Statistical Area includes approximately 339 persons who should have been classified as "other" persons in group quarters.

## Tables 35, 37 to 44, 46 to 52, 54 to 58, 60, 61, 63 to 65, 67, 69, 71, and 91 to 93

In the chapter C tabulations for Connecticut, 346 persons (almost all males) living in group quarters that housed agricultural workers were classified incorrectly as rural-nonfarm residents. These quarters were located on farms, and hence these persons should have been classified as rural-farm residents. All chapter C tables which present data on farm-nonfarm residence are subject to this error. The overall impact is relatively minor for rural-nonfarm males, amounting to an overstatement of only a fraction of one percent; for rural-farm males, on the other hand, the understatement is about three percent. The impact of the error on the figures for particular groups or areas may, of course, be substantially smaller or greater. When this error was discovered, it was no longer feasible to retabulate the chapter C data. In the chapter D tabulations, however, the error was eliminated; and therefore, for certain subjects, correct State figures can be obtained from the appropriate chapter D tables. For corrections in chapter C table 37, see chapter D table 95; 38, see 96; 44 and 46, see 101; 47, see 103; 48, see 104; 49 and 50, see 106 and 107; 51, see 113; 52 and 54, see 115; 55, see 118; 57, see 121; 65, see 139; 67, see 133; 71, see specific subject tables listed above.

## Page 92, table 58

The error in table 57 described above also affected the data in table 58, but the amount of the correction for white and nonwhite could not be determined.

## Page 93, table 59

For "Construction craftsmen," under "Number, 1960," change 37,506 to 37,185; and under "Percent increase, 1950 to 1960," change 11.4 to 10.3. For "Other craftsmen," change 24,427 to 24,748, and 5.8 to 7.1, respectively.

## Pages 99, 100, 141-147, and 167, tables 65, 76, and 86

The stub line "Husband-wife families, one earner, two children under 18 years" should read "Husband-wife families, head an earner, two children under 18."

## Page 174, table C-2

The nonresponse rates for "Birth date, decade unknown" erroneously exclude nonresponses for group quarters members other than inmates.

## Pages 175 and 176, tables C-2 and C-3

Delete "Note" at end of tables. Nonresponse allocation rates for family income are somewhat overstated; for a detailed discussion, see text, p. XLII.

## Pages 187-190, table 99

Add footnote symbol 3 to the line for "Other West Indies."

## Page 239, table 114--See page XLVIII.

## Pages 268, 274, 280, and 286, tables 120 and 121

Under "Laborers (n.e.c.)" the 15 lines from "Machinery, exc. electrical" through "Miscellaneous manufacturing industries" are indented two spaces too many.

## Pages 287-326, tables 122 to 124

On each page showing Male, Operatives and kindred workers, the line reading "Furnacemen, smeltermen, and heaters" should be changed to "Furnacemen, smeltermen, and pourers."

## Pages 287-350, tables 122 to 125

On each page showing Male, Craftsmen, foremen, and kindred workers, the line reading "Cranemen, hoistmen, and const. mach. operators" should be changed to "Cranemen, derrickmen, and hoistmen."

## Page 418, table D-1

The following explanatory footnote should be keyed to the line for "Not reported" in the section on "Relationship":

Limited to persons who were allocated to the categories "Wife of head," "Other relative of head," or "Nonrelative of head."

## Page 418, table D-1

The category "Not reported in decade or year" under "Age" erroneously excludes non-responses on decade of birth for group quarters members other than inmates.
